Ex2 Friday: pocket guide

Test 09:30 to 16:00. One 30-minute break: **email your supervisor at the START and at the END.** Screenshots: **max 5 pages A4.** Upload to **Blackboard**. Submission is **final**. **No AI chat, no messaging.**
Actual start: _____

Rules

1. Stuck 10 minutes? Say “the next step is ____”. Write your assumption. Move on.
2. Retype your prepared work in your own words. Do not paste.
3. Protect **Malware** and **Threats** first (merit and distinction).
4. Honest labels: **Observed** or **Known**. Never write “secure”.

Schedule

#	Block	Clock	Done
1	Start and RoE	09:30 to 10:00	☐
2	Intel table	10:00 to 10:45	☐
3	Malware table	10:45 to 11:30	☐
4	Threat table	11:30 to 12:15	☐
	Break + 2 emails	12:15 to 12:45	☐
5	Lab evidence, screenshots	12:45 to 13:15	☐
6	Assurance strategy	13:15 to 13:50	☐
7	Justification	13:50 to 14:50	☐
8	Final check, UPLOAD	14:50 to 15:30	☐
9	Buffer, no new work	15:30 to 16:00	☐

Email at break start: ☐ _____ Email at break end: ☐ _____

Quick ticks

1 RoE (30) ☐ folders ☐ RoE says v1 09:30, v2 today ☐ escalation named ☐ hash re-checked, matches ☐ five yellow topics ticked

2 Intel (45) ☐ one real lookup per row (VT, WHOIS, ASN) ☐ NCSC page and OWASP page cited ☐ reliability, confidence, action filled ☐ allowlist and false positives marked ☐ 2 lines: what changed after enrichment

3 Malware (45) ☐ each Fig really shows the claim ☐ ATT&CK IDs checked (T1566 on MITRE) ☐ Observed or Known on each row ☐ **MERIT: 3 lines, how I saw past the packing** ☐ 2 lines: why triage said “low” ☐ what is mine vs pre-written

4 Threats (45) ☐ 6 rows complete ☐ **MERIT: rows 4 and 5, processes** ☐ row 6 Tested = Yes (Fig 9) ☐ boundaries and SaaS assumption ☐ **DISTINCTION: a mitigation on every row**

5 Lab (30) ☐ target was the Ex1 sync app only ☐ 200 tokens, all 401, no lockout ☐ “small sample” ☐ sqlmap: inconclusive ☐ 5 pages A4 or fewer ☐ captions

6 Assurance (35) ☐ objectives ☐ measurable acceptance criteria ☐ test plan, 5+ rows ☐ four approaches ☐ 2 intrinsic, 1 extrinsic with limits ☐ trusted vs trustworthy ☐ retest triggers. Pass only: stop on time.

7 Justification (60) ☐ one section at a time ☐ check against figures ☐ retype ☐ no [CONFIRM] ☐ section 3 matches block 6 ☐ 900 to 1,100 words

If short of time: 1 Malware merit + Threat table. 2 RoE + hash. 3 Short assurance. 4 Short justification.

Final check before UPLOAD

☐ Words 900 to 1,100

☐ Every Fig and Table mentioned by number

☐ Screenshots 5 pages A4 or fewer

☐ Same hash in RoE, Table 1 and justification

☐ No [CONFIRM] or [N] left

☐ Own work vs pre-written is clear

☐ No sample, credentials or real personal data in the upload

☐ Upload to Blackboard

☐ Shows as submitted; screenshot the confirmation

☐ Upload failed? Retry, then tell your supervisor. Note the time.
